

FLAME SEAL-TB TRAINING PROGRAM OVERVIEW

Flame Seal Products, Inc.™, developer and manufacturer of the best performing, Aerospace Qualified intumescent coating on the market, is now selling this technology as Flame Seal-TB™ directly to foam contractors and applicators, providing as much as a 30% cost reduction from past distributor pricing.

Flame Seal TB™ has been certified multiple times as both a Thermal and Ignition Barrier over the majority of foam brands available. Flame Seal continues to work with the foam industry to bring this world-class product to the market. We are dedicated to providing the best value and the safest foam installations possible.

QUALIFIED APPLICATION PROGRAM-LEVEL 1

Format: One-Hour Automated Online Webinar (www.flamesealtb.com)

Objective: Review and identify the basic mixing, application, environmental, and equipment processing parameters to apply Flame Seal-TB.

Requirements:

- View the one hour webinar
- Take the short review test and submit to Flame Seal Products, Inc. for review (flameseal@flameseal.com).
- Sign the QAP Self Monitored Level 1 Form and submit to Flame Seal Products, Inc.
- Utilize Flame Seal-TB Level 1 and 2 Questionnaires to qualify projects.
- Keep a log of the following standard information - Date, Ambient Temperature, Foam Temperature, Humidity, Dew Point, Product Lot Number, Mil Thickness (Quantity and Area Sprayed) - it is highly recommended for large projects to keep a daily record of application area - including the standard information. It is also recommend to keep photos of application sites for reference.
- Install Flame Seal-TB based on the requirements outline in the QAP Application Guide.

FLAME SEAL-TB TRAINING PROGRAM OVERVIEW

QUALIFIED APPLICATION PROGRAM-LEVEL 3

Format: Three-Hour Online Webinar conducted and supervised by a Flame Seal expert.

Objective: This is a second training tier. It includes all the issues involved in complex projects: freezers, cold storage, extremely cold environments, and wet environments. Level 3 training is conducted via Webinar that is NOT automated, but rather is supervised by one of Flame Seal's expert trainers.

Requirements:

- Completion of Flame Seal's QAP Level 1 Training
- Completion of at least ten Level 1 type Flame Seal-TB projects.
- Take the review test and submit to Flame Seal Products, Inc. for review (flameseal@flameseal.com).
- Sign the Qualified Applicator Terms & Conditions Form and submit to Flame Seal Products, Inc. to execute final agreement.
- Utilize Flame Seal-TB Level 3 and 4 Questionnaire to qualify projects.
- Keep a log of the following standard information - Date, Ambient Temperature, Foam Temperature, Humidity, Dew Point, Product Lot Number, Mil Thickness (Quantity and Area Sprayed) - it is highly recommended for large projects to keep a daily record of application area - including the standard information. It is also recommend to keep photos of application sites for reference.
- Install Flame Seal-TB based on the requirements outline in the QAP Application Guide.

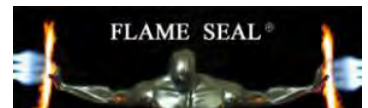

FLAME SEAL-TB SALES TEAM TRAINING

Format: Two-Hour Online Webinar or (In-Person for Groups of Ten or More) Conducted by a member of the Flame Seal-TB Executive Management Team.

Objective: Provide a comprehensive overview regarding material testing, codes, and potential applications.

Requirements:

- Complete Flame Seal-TB Qualified Applicator Program-Level 1 Webinar
- Possess solid knowledge of spray foam insulation applications.
- Be familiar with model building codes.
