

MSDS Statement

The requirements for manufacturers to provide material safety data sheets (MSDS) to their customers are found in the Federal Occupational Safety and Health Administration's Hazard Communication Rule (29 C.F.R. Section 1910.1200). HiCube Coating Tapes qualify as "articles" under that rule, and therefore are exempt from MSDS requirements.

1910.1200(b)(6)(v)(c) Hazard communication.

"Article" means a manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical (as determined under paragraph (d) of this section), and does not pose a physical hazard or health risk to employees.

We have made no determination as to whether the use of this product will be suitable for any specific application. It is the legal responsibility of the end user to determine the suitability of HiCube Coating Tapes for a particular application.
