Appalachian Insulation Supply Inc
22 Black Hawk Lane
Elizabethtown, PA 170228704

Dear Valued Customer:

As a result of continued raw material feedstock increases from suppliers and market tightness on MDI, NCFI Polyurethanes foam systems have increased in cost.

Effective March 19, 2018, NCFI will increase pricing on all foam systems by \$.10 / pound. Your account manager will be contacting you regarding the increase to these product lines.

Materials shipped after March 19, 2018 will be invoiced at the adjusted prices.

NCFI remains committed to providing quality polyurethane foam systems, delivered with exceptional service, from the most experienced professionals in the industry.

NCFI appreciates your understanding and your valuable continued business. We are continually working to minimize these increases. Please contact your account manager if you have any further questions.

Regards,

NCFI Polyurethanes
