RE: Insulation Systems Transportation Fee

Insulation Systems Customer,

Historically, diesel fuel price surcharges have been a primary driver of transportation cost increases. However, more recently, driver shortages, carrier capacity and increased demand have led to significant increases in base transportation rates.

To reflect the current transportation market more accurately, we are increasing our transportation fee to \$200.00 USD (\$260.00 CAD) per truckload, effective on all orders shipped on or after **July 1, 2021**.

The transportation fee applies to shipments of all JM Insulation Systems Products (Building Insulation, Mechanical, HVAC, Industrial and OEM). In addition, the current Fuel Surcharge schedule remains in effect

If you have any questions regarding this change, please contact your main JM sales representative. Thank you for your ongoing support of JM products.
