

October 20, 2021

To Our Valued Customers,

Ongoing market volatility, increased MDI tightness, and major constraints on key resin raw materials continue to impact manufacturing costs in the spray foam industry. Feedback from the global supplier network indicate continued raw material supply constraints and cost pressure for the foreseeable future. In response, SWD will implement a 15% price increase for all foam and coatings products effective November 15, 2021. In all cases, pricing in effect at the time of shipment will apply.

Your sales representative will reach out to provide details and address any questions you have. We thank you for your business and appreciate your ongoing partnership.

Best Regards,  
Brandon Cantrell  
Vice President of Sales  
SWD
