

PRODUCT ANNOUNCEMENT

To All US Fiberglass Customers,

In order to better manage our available supply, we are implementing ordering deadlines for our fiberglass building insulation products beginning in December 2023, effective for January 2024 orders. All fiberglass batt, roll and blowing wool **orders must be received no later than the 15th of the preceding month**. For example; January orders must be placed no later than December 15th.

Orders placed by the 15th of month do not guarantee a specific ship date within the following month. Any available truckloads within a customers managed supply target that are not ordered by the deadline will be forfeited for the next month. We will not be able to accept any orders after the deadline. Any material that is forfeited will not be carried over into future months.

As always, everyone is encouraged to place orders as early as possible in order to secure the best possible production, loading and shipping dates.

We appreciate your patience as we work to streamline our process and better service our customers. Please do not hesitate to reach out to your local Territory Manager with any questions. Thank you for your support during this challenging time.

Respectfully,

Gabriel Baradat
Director of Sales
Building Insulation Division
Insulation Systems
