Wireless Remotes

Transmitter

Receiver

The **Wireless Remote** is AC compatible with our model KS260 and CTS truck systems, models 475/ 575/ 2300 and models 250A/425 with an ELU electrical system. Also available in DC compatible for the model 2800/4000 and 5200.

The **Transmitter** is hand-held with an internal antenna. Rated up to 500 feet, the wireless remote is practical to use at the job site. It is a three button system for independent control of the blower, off, and blower and agitator combination mode. The transmitter requires (2)-AA- batteries and weighs .4lbs. The receiver specifications are 5 3/4" x 3" x 1 3/4" Thick.

The **Wireless Remote** is preferred by the professional contractor.
