

Falcon Pro Kit

A mid-range system for applications up to 1500 feet. Designed for one of the world's largest blown-insulation companies, these controls simplify the process of controlling 1 to 3 switches while giving operator unlimited movement in a 1500 foot range.

The Falcon Pro kit includes:

- 1 Falcon Pro 3-button Transmitter w/ Boot & Belt
- 1 YellowJacket Receiver
- 1 Magnet Mount Antenna
- 2 AA Rechargeable Batteries & Wall Charger
- Power Supply or Power Cable
- Installation and Operations Manual
