

FOAMULAR[®]
Energy-Saving, Moisture-Resistant XPS Insulation

FOAMULAR[®] XPS has a story that helps you go **GREEN!**

- **FOAMULAR XPS is the only XPS with a third party, independently certified, minimum 20% recycle content – third party certification of recycled content by SCS (Scientific Certification Systems) www.scs-certified.com**
- **FOAMULAR XPS is the only XPS that is GREENGUARD Indoor Air Quality Certified[®] and certified under the even more stringent GREENGUARD Children & SchoolsSM www.Greenguard.org**
- **FOAMULAR XPS is reusable**
- **In the U.S. and Canada our new FOAMULAR Blowing Agent Formula has 70% less Global Warming Potential (GWP) than our previous formula.**
- Utilizing FOAMULAR[®] XPS (Extruded Polystyrene) insulation can help builders achieve green building certifications including the Environmental Protection Agency's ENERGY STAR[®] Program, the National Association of Home Builders' National Green Building standard, and the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) certification.
- FOAMULAR[®] XPS products are eligible for the Federal Tax Credit for existing homes under the American Reinvestment & Recovery Act of 2009.
- The Gresham, Oregon Foamular Manufacturing Facility achieved LEED Gold certification. It is the only LEED certified insulation manufacturing facility in the U.S.
- The Owens Corning World Headquarters is certified Silver in the Existing Building category of the Leadership in Energy and Environmental Design (LEED) Green Building Rating System[™] by the U.S. Green Building Council.
- The Owens Corning World Headquarters in Toledo, Ohio earned the U.S. Environmental Protection Agency's ENERGY STAR[®] certification.
- Sustainability at Owens Corning is a core business strategy.
- In 2009, Owens Corning was ranked by Newsweek as the 56th greenest company of America's 500 largest publicly traded companies.
- Owens Corning demonstrates our approach to sustainability by delivering on our ongoing commitment of greening our operations, greening our products and accelerating energy efficiency in the built environment.

The GREENGUARD INDOOR AIR QUALITY CERTIFIED Mark is a registered certification mark used under license through the GREENGUARD Environmental Institute. Scientific Certification Systems (SCS) provides independent verification of recycled content in building materials and verifies recycled content claims made by manufacturers. For more information, visit www.scs-certified.com. ENERGY STAR and the ENERGY STAR mark are registered trademarks of the U.S. Environmental Protection Agency. The NAHB Research Center Green Approved mark is your assurance that a product is eligible for points toward National Green Building Certification. Visit www.GreenApprovedProducts.com for more details. LEED[®] is a registered trademark of US Green Building Council.
