Fire Stop Insulation Thermafiber® SafingPaks®

- + Ideal for plumbing, electrical, telecom and HVAC poke-throughs
- + Key component for restoring pokethroughs and penetrations to fire rating
- + Small, convenient package size for easy transport on & off the job
- + Resealable, toteable jobsite bag ideal for field personnel
- + Precut pieces are easy to handle making installation easier and faster
- + Fire resistant to temperatures above 2000°F (1093°C)
- + Available for overnight shipment

Description:	Thermafiber® SafingPaks THERMAFIBER SafingPaks are a contractor and jobsite friendly package of our UL and INTERTEK listed and labeled Safing Insulation. Safing Insulation is designed to provide life saving fire protection in floor and wall penetrations, construction joints, and other firestopping applications. These products are noncombustible, moisture-resistant, noncorrosive, nondeteriorating, mildew-proof and vermin-proof. Thermafiber Safing provides thermal insulation, fire protection, and acoustical control in many different UL and Intertek (formerly OPL) listed fire containment assemblies of 1, 2, and 3-hr ratings.							
Product Options:	 Polybag packaging only Polybag packaged inside a carton Polybags and Cartons can be shipped on pallets for easy handling 							
Installation:	All firestopping insulation compressed Safing insulaPenetration Application opening, leaving no volume	ation should be n: Safing insul	e installed p ation shoul	oer the listed ar	nd tested assem y larger than the	bly.		·
